Jean-Jacques Damlamian Amdt. dated December 30, 2004 Preliminary Amendment

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

Please cancel claims 1-25.

(New) A recharging device comprising a portable charger, said charger 26. 1 2 comprising 3 a connection to a source of electrical power, a plurality of connection points for items of portable rechargeable equipment for 4 5 different uses, and an adapter, being powered by said source of electrical power and adapting it to 6 7 provide recharging power for the items of portable rechargeable equipment, said adapter 8 comprising 9 a microprocessor and a multi-voltage converter supplying voltages and currents adapted to said items of 10 equipment to be recharged, said adapter adapting the charging power to the item of portable 11 equipment as a function of a charging program supplied to said charger, the device further 12 13 comprising a plurality of items of portable rechargeable equipment for different uses connected to said charger, the charger adapting a receiving item of portable equipment to a source item of 14 15 portable equipment. (New) The device according to claim 26, wherein the charger is adapted 1 27. 2 to detect, and signal by a visual or aural signal, an incorrect status of a connection contact. 1 28. (New) The device according to claim 26, wherein said items of equipment 2 each have their own recharging program.

1	29. (New) The deice according to claim 26, wherein a first item of equipment
2	is connected to a second item of equipment, the first item of equipment connecting the second
3	item of equipment to the charger.
1	30. (New) The device according to claim 29, wherein the second item of
2	equipment is charted via the first item of equipment.
1	31. (New) The device according to claim 26, wherein the device further
2	comprises a computer connected to said charger, said adapter adapting charging power to the
3	item of portable equipment as a function of a charging program supplied by said computer.
1	32. (New) The device according to claim 31, wherein said computer
2	recognizes the item of portable equipment to be recharged.
1	. (New) The device according to claim 32, wherein the computer is adapted
2	to download a charging program from the Internet.
1	34. (New) The device according to claim 31, wherein the link between the
2	computer and the charger is of the USB type.
1	35. (New) The device according to claim 26, wherein the item of receiving
2	equipment is adapted to be charged on the item of source portable equipment via said charger
3	(10).
1	36. (New) The device according to claim 35, wherein said item of source
2	equipment is adapted to trigger a switching function in said charger and to only enable switch-
3	over to generator mode when there is a connection of said item of source equipment to said
4	charger.
1	37. (New) The device according to claim 35, wherein said charger further
2	comprises a converter adapting the charging power of said item of source equipment to said item
3	of portable receiving equipment.

Jean-Jacques Damlamian Amdt. dated December 30, 2004 Preliminary Amendment

- 1 38. (New) The device according to claim 35, wherein said items of equipment
- 2 supply said charger or other items of portable equipment with their charging program by wireless
- 3 link.
